## CHAPTER 1

GENERAL INFORMATIONA. INTRODUCTION

1. This volume of the DoD Catalog of Audiovisual (AV) Productions is produced from the Defense Audiovisual Information System (DAVIS) data base compiled as prescribed by DoD Directive 5040.2 (reference (a)) and is intended primarily for use by Department of the Air Force (DF) and DoD Components other than the Military Services.

2. This volume contains a complete listing of all classified and unclassified Air Force and miscellaneous DoD AV productions that are in general distribution, and detailed instructions for ordering them. The Defense Library System does not have in stock all the productions listed in the Catalog. Many of these productions are retained by the functional activity responsible for its production, such as Air Training Command (ATC).

3. This volume contains three appendices, as follows:

Appendix A Section 1 AV Thesaurus  
 Section 2 Descriptor Index  
 Section 3 Categorical Index of AV  
 Productions

Appendix B Alphabetical Title Index/SAVPIN Cross  
 Reference

Appendix C Catalog of AV Productions (listed in numerical  
 sequence by SAVPIN)

B. WHO MAY USE COPIES OF DF AV PRODUCTIONS

1. Except as specifically limited by DoD or DF directives or legal or other restrictions, DF activities, other DoD Components, and federal agencies are authorized to borrow copies of unclassified DF AV productions.

2. Copies of those productions designated "cleared" also may be loaned to the general public, including state and local governments. A complete listing of DoD AV productions cleared for use by the public may be found in Volume 4 of this Catalog.

3. Copies of classified DF AV productions are available for use, on a restricted basis, by those Air Force units having a "need to know" and to other DoD Components whose mission and functions require access to such classified information. The handling and control of all classified material shall be in accordance with DoD 5200.1-R (reference (b)) and AF 205-1 (reference (c)).

4. Inquiries from foreign governments, international organizations, or other foreign interests requesting loan, sale, or information of DF AV productions, whether designated cleared or not cleared, classified or not classified, shall be handled as follows:

a. Foreign governments or foreign military services may request AV productions through the U.S. Defense Attache Office located at the American embassy in their country.

b. All foreign nongovernment interests may apply through the U.S. Information Service.

5. Public clearance designators for DF AV productions are as follows:

a. Cleared. Productions that are cleared are those granted public clearance by the Assistant Secretary of Defense (Public Affairs) (ASD(PA)). These productions may be loaned or exhibited to the public with or without restrictions. These productions also are available for sale or rental to the public through the National Audiovisual Center (NAC), National Archives and Records Service, General Services Administration, Washington, D.C. 20409.

b. Not Cleared. Productions that are not cleared are AV productions releasable to the public for exhibition purposes only when restrictive conditions have been lifted. Only then can public clearance be granted by ASD(PA). The requestor shall initiate the request to have these restrictions lifted. Typically, restrictions include security classification, rights retained by copyright owners, or by talent by virtue of statutory grants, agreements, or privacy rights.

c. Specific Authorized Clearances or Restrictions. The most common codes found in this Catalog are:

(1) PE. Public Exhibition (nonprofit). Denotes an AV production that has been cleared for "public" exhibition in its released distribution media on a nonprofit basis only; no admission may be charged.

(2) TV. Television (nonsponsored). Denotes an AV production that, in addition to PE, has been cleared for broadcast by commercial television stations on a nonsponsored basis as a public service and by public television stations.

(3) TH. Theatrical. Denotes an AV production that, in addition to PE, has been cleared for exhibition or use by a commercial enterprise such as a theater charging admission.

(4) PS. Public Sale. Denotes an AV production that may be purchased through NAC. See paragraph B.5.a., above.

6. Status Designators. All AV productions listed in this Catalog are current unless specifically annotated as historical. A historical production no longer reflects current DoD policies, program, or procedures, but is retained for use because of its historical significance. Before all showings of historical productions, audiences must be made aware that such

productions do not reflect current DoD policies, programs, or procedures. Obsolete AV productions are those judged by the sponsoring command no longer to reflect current policies or programs and not having historical significance. These have been withdrawn from active circulation and are no longer available for loan except when fully justified and approved by the DF AV manager.

7. Copyright Responsibility. Copies of proprietary AV productions that have been adopted for a DoD Component use or purchased for limited internal use shall be exhibited only in the original or other legally acquired form. U.S. Copyright Law (reference (c)), DoD 5040.2-R (reference (d)) and specific procurement conditions govern for each title. Violation of federal copyright laws by unauthorized reproduction or exhibition may result in judicial or administrative penalties.

8. Loan of Copies of DoD AV Productions to DoD Contractors. Copies of classified and unclassified AV productions, including productions that have not been cleared for public exhibition, may be loaned to authorized DoD contractors for showing to appropriately cleared contractor personnel. Request for loan shall be submitted to the AV Distribution Services Branch (DAVA-N-LDS), through the appropriate Defense Center Administration Services Office, for approval.

9. Prohibition Against Reproduction of DF AV Productions. Copies of DF AV productions are accountable AV records. The DF Inventory Control Point (ICP) is managed by the Chief, Defense Audiovisual Agency, Norton Activity (DAVA-N-AC), Norton Air Force Base, CA 92409. DF AV productions may not be copied in whole or in part or otherwise reproduced unless specific written approval has been granted by the above ICP.

#### C. STANDARD AV PRODUCTION IDENTIFICATION NUMBER (SAVPIN)

All AV productions listed in this volume are assigned a SAVPIN. The one number used when requesting copies of AV productions listed in Appendix C is the SAVPIN.

#### D. TYPES OF LOAN

1. Specified Term Loan. A specified term loan is for a specified number of days. Loan periods may be extended if available copies have not already been prebooked by other requesters. Requests for a loan extension shall show the added time needed and be received by DAVA-N-LDS at least 10 workdays before the due-in date, if possible.

2. Indefinite Loan. Indefinite loans are for an unspecified period of time. Requests for indefinite loans must be fully justified. Copies of AV productions on indefinite loan are subject to recall by DAVA-N-LDS if usage does not warrant retention.

## CHAPTER 2

ORDERING INSTRUCTIONSA. WHERE AND HOW TO OBTAIN COPIES

Air Force AV productions usually are available for loan from Air Force Base AV Service Centers (BAVSC). Persons who are not within commuting distance of an Air Force base may send their requests by mail to:

Defense Audiovisual Agency - Norton Activity  
 Attention: DAVA-N-LDS  
 Norton Air Force Base, CA 92409

B. CONDITIONS OF LOAN

Users shall agree to the following conditions when borrowing AV materials from DAVA-N-LDS or any Air Force base AV library or service center:

1. AV productions may be requested on AF Form 2018, Audiovisual Material Request, by letter or by message. Requests may not be made by telephone except in cases of emergency. Requests should be received at least 3 weeks before the first showing date.

2. AV materials shall be returned to the loaning library to ensure receipt on or before due-in date shown on the AF Form 2012, Film Shipping Card.

3. Separate request forms shall be used when requesting classified and unclassified copies of AV productions. That is, the same request form may not be used to order both. When requesting classified productions the requester shall:

a. State the degree of classification of each.

b. Provide a complete justification for each production ordered to allow the issuing library to determine the requester's need to know. Justification may not contain any information that would cause the request itself to be classified.

c. Certify that productions will be handled according to DoD 5200.1-R (reference (b) and AFR 205-1 (reference (e))).

d. Have the request form signed by the commanding officer, executive officer, or activity security officer. Exception may be made only if authority has been delegated in writing and the signature of the authorized requester is on file at the issuing AV library. DD Form 577, Signature Card, may be used for this purpose.

4. In addition to the SAVPIN and title, include the desired media and format, such as, 16mm, 3/4 videocassette, or slide-tape, in accordance with available media shown in Appendix C.

5. AV productions may be shown only by a qualified projectionist.

6. AV productions shall be shown only to authorized audiences, in consonance with designated clearances (see paragraph B.3.c., above). The user is responsible for ensuring that the production is cleared appropriately if he or she intends to exhibit it to other than military and civilian employees of the federal government.

7. Users will furnish the issuing library with the number of showings and total audience count for each AV production borrowed. The AF Form 2012, which shall be returned with the AV production, will be used to record showing and attendance data for productions borrowed from DAVA-N-LDS. Showings and attendance data for productions on indefinite loans from DAVA shall be reported as of September 30 annually upon receipt of the report format from DAVA.

### C. HOW TO USE THIS CATALOG

1. Appendix A, AV Thesaurus, and Categorical Index. This appendix contains a list of subjects, by category field, group codes, and scope notes that provide the key to locating AV productions listed in Appendix C.

a. The Thesaurus contains scope notes that should be used when a specific AV production is not being requested or when the title and number is not known. By using this section, specific categories can be identified and referred to. This is done by identifying the specific groups and subgroups within a general subject field.

b. There are currently 21 general fields and 157 groups that are recognized officially in the DAVIS. An alpha character is assigned to each general field. For example, "A" is Aeronautics, "B" is Behavioral and Social Sciences, and so forth. Subject groups are divided further into groups that are identified by numbers beginning with "01" in each field. The number "01" in field "A" represents "Aerodynamics."

c. Finally, Appendix A contains an index of each production by category; that is, subject and group codes. Any particular AV production may be listed under more than one category.

2. Appendix B, Alphabetical Title Index/SAVPIN Cross Reference. This Appendix lists AV productions by title in alphabetical order. When the articles "A", "An," and "The" are used in the title, they appear at the end of the title; for example, the title "The Death of Superman" is listed as "Death of Superman, The." When the title of a production is known, the user shall:

a. Locate the AV production by title.

b. Identify the SAVPIN.

c. Find the SAVPIN listed numerically in Appendix D for a complete description of the AV production.

3. Appendix C, Catalog of Air Force and Miscellaneous DoD Productions.  
This appendix contains full information on classified and unclassified AV productions available for general distribution. Data in the record includes:

- a. The DoD SAVPIN and DoD Component Digraph, such as:
  - DF - Air Force
  - DD - Department of Defense
  - DL - Defense Intelligence Agency
  - DS - Defense Logistics Agency
  - DH - Defense Nuclear Agency, and
  - DY - Defense Audiovisual Agency
- b. Production title.
- c. Description of primary and secondary distribution media.
- d. Length of the production or number of units.
- e. Clearance (if any).
- f. Currency status. (An AVA production is current unless identified as historical).
- g. Calendar year completed and security classification.

SECTION 12. DISCUSSION COVERS JOHN 11:12-26. A PART OF THE GOOD NEWS ABOUT GOD IS THAT HE IS ALWAYS WORKING WITH RESURRECTION POWER TO TRANSFORM DEATH INTO LIFE, SORROW INTO JOY, DESPAIR INTO HOPE, AND SILENCE INTO HEALTH. A GREAT PART OF THE ABUNDANCE OF LIFE WILL THEREFORE COME TO US ONLY THROUGH A DEATH EXPERIENCE. A GAIN OF WHAT, JESUS SAID, CANNOT BEAR FRUIT UNLESS IT FALLS INTO THE SEAR AND DIES. THIS PROCESS OF DEATH AND RESURRECTION WORKS ON EVERY LEVEL OF OUR EXISTENCE, FROM THE "LITTLE DEATHS" OF EVERYDAY LIFE TO THE DEATH OF OUR BODY.
